Forecast for Monday 09 May 2022

Weather: Cloudy with outbreaks of rain. Rain will be more persistent in the west of area with some heavier outbreaks, especially over the mountains of Skye, Torridon and Knoydart. Rain will be lighter, more patchy over hills around Great Glen with drier weather towards Ben Wyvis.

Chance of cloud-free hill tops above 800m: 30%, best in east of area.

Low cloud and visibility: Misty conditions in west of area with poor visibility in heavier rain. Extensive cloud cover around 600 to 700m with patches lower down near to West Coast. Occasionally good visibility in east of area with higher cloud bases, lifting above some of the tops.

Met Office Aberdeen Meteorologist's View
Difficult walking conditions developing over many higher ridges/summits due to dangerous mix of gales, cold rain and temperatures of only 5 or 6 Celsius.

Forecast for Tuesday 10 May 2022
Weather: A brighter day with sunshine and scattered showers. Some heavier showers are likely but they will pass by quickly so still a lot of dry weather during the day.

Maximum wind: Strong southwest winds over higher ridges and summits. Average speeds of 30mph with gusts 40 to 50mph.

Chance of cloud-free hill tops above 800m: 50%

Low cloud and visibility: Good visibility for much of the time with occasional cloud cover about 700 to 800m. Temporary interruptions to poor visibility as showers pass by and clouds briefly lowering.

Temperature: **Glens:** Plus 6 Celsius rising to 13 Celsius.
At 800m: Plus 5 Celsius.
Freezing level: 1400m.
